WEDDINGS

-2014-

CONGRATULATIONS

& best wishes!

Now that you are engaged, there are so many decisions to be made. Each of those choices will reflect your personal style and the tone of the day that begins your lives together. Photography is the cornerstone in documenting your day and your vision. Choosing the right photographer is one of the most important decisions you will make when planning your wedding. Your wedding photographs serve as a direct connection to your memories of your wedding day and allow you to relive - over and over and for years to come - all of the beauty and joy of the day you begin your lives together.

BRINGING YOUR DREAMS TO LIFE Memorable photographs begin long before the bride slips into her gown or the groom puts on his tuxedo. Your wedding is a reflection of you as a couple. To truly and fully capture the first day of your lives together, we think it is important to get to know you and what matters to you both. Remarkable wedding photography begins with your vision. We will work together with you to fully explore your dreams and goals for your wedding celebration to capture your love for each other with the most authentic photography possible.

WE BELIEVE IN QUALITY During your consultation, we want to share with you complete wedding galleries, portfolios and albums. Our quality, artistry and professionalism shines through in every image - from those once-in-a-lifetime moments to the most carefully chosen details.

RELAX, RELY ON OUR EXPERIENCE Regardless of location or environment, we have the knowledge and experience to capture your wedding day beautifully. We realize how important your wedding photographs are, but your experience should be amazing as well - so relax, we are there for you.

We are honored that you are considering B Payden Photography to be an integral part of one of the most important days of your lives. We look forward to capturing your unique wedding and to preserving your memories to be enjoyed by you and your loved ones for many years to come.

The best love

is the kind that awakens the soul
and makes us reach for more,
that plants a fire in our hearts
and brings peace to our minds.

And

that's what you've given me.
That's what I'd hoped to give you
forever

LIFETIME INVESTMENT

Lasting memories

YOUR WEDDING PORTRAITS ARE NOT JUST PHOTOGRAPHS, but heirlooms to be treasured, admired and passed along for generations. After the cake has been eaten, the flowers have faded, the day has ended, and the guests have all gone home, your photos will be there as a reminder of that special and important day. We specialize in the fine art presentation of your wedding memories by offering many wall art options including canvas wall portraits and custom-designed archival quality albums. We keep your Wedding Investment very straightforward, so you have one less thing to stress over while preparing for your most special day. We charge \$250 per hour for your wedding day within The Washington DC Metro Area for Two Professional Photographers and an assistant as needed. Included in your hourly rate is Pre and Post Wedding Photo Consultations, Professional Processing of all images, hosting of your images on our website for One Year as well as a custom wedding website for your guests, friends and family to view and purchase your beautiful images. We have payment plans available and will work with you to accommodate your budget so you don't have to choose your memories based solely on price. Please contact us directly for Your Destination Wedding, for a custom quote and for any questions you may have.

DAY AFTER *session*

The “Day After” Session is one of my favorite additions to classic wedding coverage. It’s a beautiful way to help you both to enjoy your new status as husband and wife, while allowing more time to celebrate with all of your guests on the big day.

The “Day After” Session allows for more time and creativity to be devoted to the most important photos in your wedding album, the photos of you and your new spouse. Plus, you can experience a different location than the wedding site. This will offer an even greater variety in your images without the worry of getting your dress dirty. Unless of course, you want to trash-the-dress.

This session need not be the day following your wedding, some of our couples opt to do it after returning from their honeymoon, or even before their big day. Whatever you choose, you will love spending the day with each other creating beautiful imagery celebrating your love together as husband and wife.

PHILOSOPHY

Wedding style

OUR STYLE OF WEDDING PHOTOGRAPHY is authentic, capturing natural beauty and emotion in order to tell the story of your wedding day. Our work has been described as relaxed, romantic and classic, all while still looking natural. We strive to be unobtrusive, following and recording real moments as they happen because, from bridal preparation to your grand departure, your wedding day is about you and those you care about.

When we photograph your wedding, we capture those grand moments, like that first kiss, the moments you never saw coming, and the subtle moments you didn't even notice that will tell the story of your unforgettable special day for decades to come.

We combine classic style portraiture with a photo journalistic approach so that your images will look amazing but natural. We keep our portraiture relaxed and fun, encouraging freedom of expression, because natural beauty often comes best with little or sometimes no direction. Family is key to any wedding and we believe that wedding gatherings are the perfect time for recording your new genealogy. As such, traditional posed family group pictures are included.

Your wedding photographs will have a timeless look and elegance. We pride ourselves on not just being photographers, but rather artists creating unique and expressive imagery.
